

Morning Musket

USS ORISKANY CVA 34

VOLUME IV, NO. 176

FRIDAY

SEPTEMBER 10, 1971

A REPRINT FROM THE SEPTEMBER 10TH EDITION OF THE "MORNING MUSKET"

THE BEST SHIP IN THE WORLD... (Anonymous)

As you all know, our ship has been awarded the Battle Efficiency "E". This award came from Commander Naval Air Forces, U.S. Pacific Fleet. It means, simply that Oriskany is the best aircraft carrier in the Pacific Fleet.

Now, we all know that any ship in PACFLT can run circles around a LANTFLT ship, so there is no doubt that we are the best carrier in either fleet, indeed in the U.S. Navy.

It goes without saying that a U.S. Navy carrier is, hands down, better than any other navy's carrier.

The next part may be open to some conjecture, but an aircraft carrier is the most important ship in the Navy. No other ship puts in such long hours of work, has such an important role, or packs so great a punch. Hence, being the best carrier, it logically follows that we are the best ship in the U.S. Navy, in any navy.

And who's to argue that a Navy ship isn't better than one of those lumbering old merchant ships? Ha!--that's obvious.

When you get right down to it, there is only one conclusion you can reach,--Oriskany is the best ship in the world--and she is our ship. Be proud of it!
